RECOMMENDATION LETTER IN RESPECT OF (YUSUF MUHAMMAD)

This letter was written on the request of the student whom I have known for the past 6 years as a good student of mine in Federal University Birnin Kebbi.

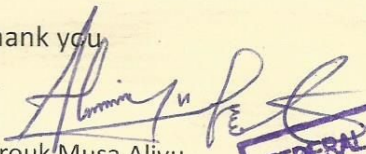

Yusuf is a hardworking, dedicated and a very obedient and respected student not only by his course mates but among the staff of his department. Yusuf has a very good English communication skill and can express his ideas clearly in an interesting and comprehensive manner.

Yusuf performs excellently in all the courses he was thought during his undergraduate studies especially in mathematical related courses and other course like Programming, Software Engineering, Web Development and Artificial Intelligence (AI). He was among the best graduating students of his set and graduated with a good second class upper division (CGPA 4.23/5.00) and has never failed any course he registered.

He has a very strong interest in software development and its applications throughout his studies in the university. Yusuf is the type of student every academic institution will be proud to have, especially with regards to his attitude and academic excellence. He has strong enthusiasm in learning and research with a lot of curiosity. He is the type of student that can innovate new and original ideas with just little supervision.

I strongly recommend him for your kind consideration and any assistance he might need. I have no reservations that Yusuf will perform beyond expectation if given this great opportunity.

Thank you,

Farouk Musa Aliyu.
Ag. HOD, CS.
